Surprisingly compact, the XP-15000 can print A3+ photos from its small footprint. It's stylish too and looks great from all angles.

### Enhanced inks

### Print when and where you want
Printing photos and documents on the go is easy; simply download the free Epson iPrint app[2] to print wirelessly from your smart device. The free Epson Creative Print[2] app can print photos directly from Facebook, create greeting cards, turn photos into colouring books, and plenty more. You can even print by emailing files to the printer from almost anywhere in the world with Epson Email Print[2].

### Flexible
Print wirelessly with or without a network using Wi-Fi and Wi-Fi Direct. There is also Ethernet for printing through a wired network. In addition, the auto power on feature activates the printer and automatically opens the output tray when a print job is sent.

### Versatile
The front-loading paper tray can be used for paper up to A4, while the rear paper feed is suitable for up to A3+ including thicker media. You can also print A4 double-sided and on suitable CDs and DVDs.
