

# FastFoto FF-680W

Quickly scan, enhance and share lots of photos in just a few clicks with this easy-to-use Wi-Fi scanner with auto feeder and included software.

Precious family photos shouldn't be lost in dusty boxes - they deserve to be shared with family and friends. There's a quick and hassle-free solution; FastFoto FF-680W with included software. This Wi-Fi scanner can swiftly digitise even the biggest family photo collection with its auto feeder. With its impressive automated features, your photos are enhanced and ready to share in just a few clicks.

## Fast and efficient

Digitising your collection of printed photos doesn't have to be difficult or time consuming - this auto feeder can scan up to 30 photos in 30 seconds<sup>1</sup>. Scan standard, square, panoramic and instant photos, from 9x13cm up to 21x91cm (panoramic). Plus it's intelligent knowing when to scan the back of a photo - helping capture special handwritten notes.

## Processing thousands of photos is quick and easy

While you can opt to manually edit the photos, there's a suite of impressive automatic features that you can select to ensure photos are ready to share. This includes cropping, rotating, restoring colours in faded photos and enhancing brightness, contrast and colour. There's also the option to automatically save both an enhanced and original version of the scan - great if you want an untouched backup.

## Sharing and storing files is easy

Choose a file type that's right for your needs: small and easy to share JPEGs or large TIFFs for maximum image quality. FastFoto software lets you share images via email and automatically upload images to cloud services such as Dropbox and Google Drive<sup>2</sup>.

## Versatile

It can archive a range of single or double-sided documents at 45ppm<sup>3</sup>, vertically up to A4, including panoramic images. And thanks to the OCR software, scanned documents are editable in Word or Excel and PDFs are searchable.
