

# LightScene EV-115

## DATASHEET / BROCHURE

The EV-115 is an innovative and versatile 2,200 lumens laser projection solution for creating experiential displays and digital signage.

Add movement and life to retail displays, hospitality events, visitor experiences, galleries, museums, corporate environments or exhibitions, with a low visual noise projector that blends into any environment. The EV-115 brings lighting and projection together, and perfectly combines high design, high image quality and installation flexibility.

### Minimalist design - maximum impact

The LightScene EV-115 allows users to unlock their creativity and project instantly appealing visuals, with sharp WXGA resolution and 2,200 lumens brightness. Thanks to its discreet design, it can be used where a traditional projector may stand out. A white version is also available.

### Simple, flexible implementation

A lightweight, adaptable design means the EV-115 can be installed in a variety of ways, from a traditional ceiling mount to a freestanding floor mount, or attached to a lighting track, including recessed lighting tracks.

### Signage-ready

Featuring a built-in media player with wireless content upload, allowing playlists to be loaded onto an SD card and played directly from the projector<sup>1</sup>. The EV-115 also features HDMI connectivity for simple integration into content management systems without specialist installation.

### Advanced installations made easy

The GPI function supports direct sensor connectivity for creating dynamic experiences that can adapt to situational changes without the need for costly external hardware. The EV-115 also uses advanced techniques such as edge blending to achieve stunning results in larger spaces that require multiple unit installations.

### Fit and forget reliability

A five-year warranty, combined with Epson's reliable laser light source technology and sealed optical engine, means that the EV-115 does not require regular maintenance.

## KEY FEATURES

- **Experiential projection**  
Create borderless content, lighting effects and blended displays with ease
- **Sensor-based content**  
GPI function for simple sensor-based experiences
- **Flexible installation**  
Can be ceiling-mounted, freestanding or attached to a lighting track
- **Signage-ready**  
Built-in media player and simple CMS integration
- **Fit and forget reliability**  
Durable Epson laser technology supported by a five-year warranty
- **Legal Statement**  
Complies with The UK Product Security and Telecommunications Infrastructure (Product Security) requirements. Epson will provide security updates for 7 years from purchase
